## Pliers Wrench

Pliers and a wrench in a single tool

DIN ISO 8976

- Replaces the need for sets of metric and imperial spanners
- Smooth jaws for damage free installation of plated fittings - working directly on chrome!
- Increased gripping capacity thanks to two additional setting positions: variable gripping of all widths across flats up to 40 mm
- 10% less weight with the same stability
- Practical adjustment scale: a laser-cut scale allows the wrench opening to be set before gripping
- Quick adjustment with push button directly on the workpiece
- Great for gripping, holding, pressing and bending workpieces
- High lever transmission for strong gripping power
- Zero backlash jaw pressure prevents damage to edges of sensitive components
- Parallel jaws give a more solid grip; its design allows flexible adjustment of all widths up to the specified maximum size
- Reliable catching of the hinge bolt: no unintentional shifting
- The ratchet type principle allows quick and easy tightening and release of all bolted connections
