Pliers Wrench

Pliers and a wrench in a single tool

IEC 60900 DIN EN 60900

⚡ 1000V 

- Replaces the need for sets of metric and imperial spanners
- Smooth jaws for damage free installation of plated fittings - working directly on chrome!
- Practical adjustment scale: A laser-cut (metric and imperial) scale enables pre-setting to the width across flats
- Great for gripping, holding, pressing and bending workpieces
- Zero backlash jaw pressure prevents damage to edges of sensitive surfaces
- No unintentional shift of the gripping jaws and no slipping of the joint
- Parallel jaws give a more solid grip; its design allows flexible adjustment of all widths up to the specified maximum size
- The ratchet type principle allows quick and easy tightening and release of all bolted connections
- High lever transmission for strong gripping power
